Appendix B	Metropolitan and Micropolitan Statistical Areas and County Components
Appendix C	Combined Statistical Areas and Component Core Based Statistical Areas

Volume 2

Appendix D	Descriptive Statistics and Frequencies
------------	--

Introduction

ICPSR produced *County Characteristics, 2000-2007* in order to facilitate multi-level data analyses. The file contains 470 variables covering an array of county characteristics by which researchers can investigate contextual influences at the county level. Included are population size and the components of population change during 2000-2005 and a wide range of characteristics on or about 2005: population by age, sex, race, and Hispanic origin; labor force size and unemployment; personal income; earnings and employment by industry; land surface form typography; climate; government revenue and expenditures; crimes reported to police; 2004 presidential election results; housing authorized by building permits; Medicare enrollment; and health profession shortage areas.

With some exceptions, the variables were derived from data files (hundreds of data files comprising millions of records) that were prepared by various federal agencies: the Bureau of the Census, the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Centers for Medicare and Medicaid Services, the Department of Energy, the Economic Research Service of the Department of Agriculture, and the Health Resources and Services Administration. Twenty-two variables were obtained from other sources. Crime statistics (twelve variables) were taken from a data file prepared by ICPSR's National Archive of Criminal Justice Data and the presidential election returns (seven variables) were derived from a data file provided by Charles Haines Stewart III, head of the Department of Political Science at the Massachusetts Institute of Technology. Two climate variables were taken from a building code proposal submitted by the Department of Energy to the International Code Council, and a third climate variable was taken from an article by Robert S. Briggs, Robert G. Lucas, and Z. Todd Taylor.¹

About one half of the variables in *County Characteristics* were copied verbatim from the data sources, while the rest were computed. Most of the computed variables were generated by combining information across records or variables in the original data files. In addition, some rates, percentages, and sums were computed.

County Characteristics has a separate record for each of the 3,141 counties and county equivalents in the United States, as defined by the National Institute of Standards and Technology (NIST) as of 2005.² Puerto Rico and the other United States possessions are not included. The county equivalents comprise Washington, D.C., parishes in Louisiana, boroughs and census areas in Alaska, and independent cities, mostly in Virginia. For the sake of brevity all of these entities are referred to as counties in this codebook.

¹ Briggs, Robert S., Lucas, Robert G., and Taylor, Z. Todd. Climate Classification for Building Energy Codes and Standards: Part 2 - Zone Definitions, Maps and Comparisons, Technical and Symposium Papers, ASHRAE Winter Meeting, Chicago, IL, January, 2003.

² The last change to the NIST county definitions occurred in 2001.

Components of the Data Collection

County Characteristics is supplied in four formats: ASCII, SAS transport (proc cport), SPSS, and Stata. In addition, SAS, SPSS, and Stata setups are provided for use with the ASCII data file.

This two-volume codebook is accompanied by a record layout file which shows the location of the variables in the ASCII data file. The variables are organized by topic, each of which is covered by a separate chapter in the codebook. Volume Two of the codebook contains Appendix D with frequencies or descriptive statistics for each variable.

All of the variables in the contextual data file are numeric except for eight character variables: five geographic descriptor variables (StateName, CountyName, CBSA_Title, MetroDivTitle, and CSA_Title) and three climate variables (ClimateZone, KoppenClass, and ClimateRegion).

Missing Values

As explained in the main body of the codebook, most of the variables have missing data for some cases. Two types of missing value codes appear in the data. The first is the generic missing value code, known as the “numeric missing value” in SAS and the “system missing value” in SPSS and Stata. Second, there are special missing value codes which are called “user defined missing data codes” in SPSS, “special numeric missing values” in SAS, and “extended missing values” in Stata. In the SAS and Stata versions of the contextual data file, the letters D, L, and M are used to represent missing value codes of the second type, while in the ASCII and SPSS versions very large negative numbers are used. Unless the second type is specifically mentioned, all of the missing values described in the codebook belong to the first type.

Chapter 1

Geographic Identification Variables, 2005

Variable Name	Description

Sources

State to Region:

U.S. Department of Commerce, Bureau of the Census, Population Estimates Program. CO-EST2005-alldata: County Population Estimates and Estimated Components of Change: April 1, 2000 to July 1, 2005. March 16, 2006.
<http://www.census.gov/popest/counties/files/CO-EST2005-ALLDATA.csv>.

CBSA to CSA_Title:

U.S. Department of Commerce, Bureau of the Census, Population Division. Core Based Statistical Areas (CBSAs) and Combined Statistical Areas (CSAs), December 2005. Internet release date January 19, 2006. Last revised June 14, 2006.
http://www.census.gov/population/estimates/metro_general/List3.xls.

Computations

1. FIPS was computed as shown above.
2. CBSA and CBSA_Status were coded zero for counties not in Core Based Statistical Areas.

3. CSA was coded zero for counties not in Combined Statistical Areas.
4. MetroDiv was coded zero for counties not in Metropolitan Divisions.

Chapter 2

Geographic Coordinates, Land Area, and Water Area, 2000

Variable Name	Description
Latitude	Latitude of a point within the county measured in degrees to six decimal places
Longitude	Longitude of a point within the county measured in degrees to six decimal places
LandArea	Land area in square miles rounded to two decimal places
WaterArea	Water area in square miles rounded to two decimal places

Source

U.S. Dept. of Commerce, Bureau of the Census, and Inter-university Consortium for Political and Social Research. Census of Population and Housing, 2000 [United States]: Selected Subsets from Summary File 3 [Computer file]. ICPSR13402-v2. Washington, DC: U.S. Dept. of Commerce, Bureau of the Census, and Ann Arbor, MI: Inter-university Consortium for Political and Social Research [producers], 2004. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 2004. DS 12 (Counties, Tables P1-P160I Only).

Computations

1. The data source has a separate record for the formerly independent city of Clifton Forge, Virginia which joined Alleghany County, Virginia in 2001. Consequently, LandArea and WaterArea were recoded for Alleghany County, Virginia. LandArea was computed by summing the land areas of Alleghany County and Clifton Forge reported in the data source, and WaterArea was computed by summing their water areas.

2. LandArea and WaterArea, which are were measured in square meters in the data source, were converted to square miles by dividing square meters by 2,589,988.

Missing Values

Broomfield County, Colorado is coded missing because it is not included in the data source, having been created after Census 2000 was conducted. Broomfield County was created from parts of Adams, Boulder, Jefferson, and Weld Counties, Colorado in 2001.

Additional Notes

1. LandArea, WaterArea, Latitude, and Longitude for Adams, Boulder, Jefferson, and Weld Counties, Colorado, are based on their previous boundaries at the time of Census 2000, i.e., before Broomfield County, Colorado was created from parts of

these counties. Broomfield County is very small compared to counties from which it was created. It covers an area of 33.58 square miles according to Broomfield Web site <http://www.broomfield.org>.

2. Latitude and Longitude for Alleghany County, Virginia, are based on the county's boundaries at the time of Census 2000, i.e., before the independent city of Clifton Forge rejoined Alleghany County in 2001. Clifton Forge is very small compared to Alleghany County and is embedded in Alleghany County. According to the data source, it had a land area of 3.09 square miles and a water area of less than 0.01 square miles.

Chapter 3
Total Population, Births, Deaths, Migration, Group Quarters Population, and Housing Units, 2000-2005

Variable Name	Description
<i>Total population</i>	
PopCen00	Census 2000 total resident population, 4/1/00
PopBase00	Total resident population estimates base, 4/1/00
Pop00	Total resident population, 7/1/00
Pop01	Total resident population, 7/1/01
Pop02	Total resident population, 7/1/02
Pop03	Total resident population, 7/1/03
Pop04	Total resident population, 7/1/04
Pop05	Total resident population, 7/1/05
<i>Population change and its components</i>	
PopGr4_00_05	Percent population growth, base 4/1/00 to 7/1/05 $\text{PopGr4_00_05} = 100((\text{Pop05} - \text{PopBase00}) / \text{PopBase00}),$ rounded to two decimal places
PopGr00_05	Percent population growth, 7/1/00 to 7/1/05 $\text{PopGr00_05} = 100((\text{Pop05} - \text{Pop00}) / \text{Pop00}),$ rounded to two decimal places
Births4_7_00	Births 4/1/00 to 7/1/00
Births01	Births 7/1/00 to 7/1/01
Births02	Births 7/1/01 to 7/1/02
Births03	Births 7/1/02 to 7/1/03
Births04	Births 7/1/03 to 7/1/04
Births05	Births 7/1/04 to 7/1/05
Deaths4_7_00	Deaths 4/1/00 to 7/1/00
Deaths01	Deaths 7/1/00 to 7/1/01
Deaths02	Deaths 7/1/01 to 7/1/02
Deaths03	Deaths 7/1/02 to 7/1/03
Deaths04	Deaths 7/1/03 to 7/1/04
Deaths05	Deaths 7/1/04 to 7/1/05
IntlMig4_7_00	Net international migration 4/1/00 to 7/1/00
IntlMig01	Net international migration 7/1/00 to 7/1/01
IntlMig02	Net International migration 7/1/01 to 7/1/02

Variable Name	Description
IntlMig03	Net International migration 7/1/02 to 7/1/03
IntlMig04	Net International migration 7/1/03 to 7/1/04
IntlMig05	Net International migration 7/1/04 to 7/1/05
IntMig4_7_00	Net Internal migration 4/1/00 to 7/1/00
IntMig01	Net Internal migration 7/1/00 to 7/1/01
IntMig02	Net Internal migration 7/1/01 to 7/1/02
IntMig03	Net Internal migration 7/1/02 to 7/1/03
IntMig04	Net Internal migration 7/1/03 to 7/1/04
IntMig05	Net Internal migration 7/1/04 to 7/1/05
Residual4_7_00	Residual 4/1/00 to 7/1/00
Residual01	Residual 7/1/00 to 7/1/01
Residual02	Residual 7/1/01 to 7/1/02
Residual03	Residual 7/1/02 to 7/1/03
Residual04	Residual 7/1/03 to 7/1/04
Residual05	Residual 7/1/04 to 7/1/05
<i>Group quarters population</i>	
GQPopBase00	Group quarters population estimates base, 4/1/00
GQPop00	Group quarters population, 7/1/00
GQPop01	Group quarters population, 7/1/01
GQPop02	Group quarters population, 7/1/02
GQPop03	Group quarters population, 7/1/03
GQPop04	Group quarters population, 7/1/04
GQPop05	Group quarters population, 7/1/05
<i>Housing units</i>	
HU_Cen00	Census 2000 housing units, 4/1/00
HU_Base00	Housing unit estimates base, 4/1/00
HU00	Housing units, 7/1/00
HU01	Housing units, 7/1/01
HU02	Housing units, 7/1/02
HU03	Housing units, 7/1/03
HU04	Housing units, 7/1/04
HU05	Housing units, 7/1/05
HUGr4_00_05	Percent housing unit growth, base 4/1/2000 to 7/1/2005 $\text{HUGr4_00_05} = 100((\text{HU05} - \text{HU_Base00}) / \text{HU_Base00}),$ rounded to two decimal places

Variable Name	Description
HUGr00_05	Percent housing unit growth, 7/1/2000 to 7/1/2005 HUGr00_05 = $100((\text{HU05} - \text{HU00}) / \text{HU00})$, rounded to two decimal places

http://www.census.gov/popest/housing/files/HU-EST2005_US.CSV

Computations

1. PopCen00 and HU_Cen00 for Alleghany County, Virginia were computed by summing the Census 2000 counts for Alleghany County and the formerly independent city of Clifton Forge, Virginia. Clifton Forge joined Alleghany County in 2001.
2. PopGr4_00_05, PopGr00_05, HUGr4_00_05, and HUGr00_05 were computed as shown above.

Missing Values

PopCen00 and HU_Cen00 are coded missing for Broomfield County, Colorado which did not exist when Census 2000 was conducted. Broomfield County was created from parts of Adams, Boulder, Jefferson, and Weld Counties, Colorado in 2001.

Additional Notes

PopCen00 and HU_Cen00 for Adams, Boulder, Jefferson, and Weld Counties, Colorado, are based on their previous boundaries at the time of Census 2000, i.e., before Broomfield County, Colorado was created from parts of these counties.

Terms and Definitions

Births - Total number of live births occurring to residents of an area during a time period, as estimated using reports from the Census Bureau's Federal-State Cooperative Program for Population Estimates (FSCPE) and the National Center for Health Statistics.

Deaths - Total number of deaths occurring to residents of an area during a time period, as estimated using reports from the Census Bureau's Federal-State Cooperative Program for Population Estimates (FSCPE) and the National Center for Health Statistics.

Group Quarters - A group quarters is a place where people live or stay other than the usual house, apartment, or mobile home. Two general types of group quarters are recognized: institutional (for example, nursing homes, mental hospitals or wards, hospitals or wards for chronically ill patients, hospices, and prison wards) and noninstitutional (for example, college or university dormitories, military barracks, group homes, shelters, missions, and flophouses). Group quarters may have housing units on the premises for staff or guests.

Housing Units - A housing unit is a house, an apartment, a mobile home or trailer, a group of rooms, or a single room that is occupied as separate living quarters, or, if vacant, is intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other persons in the building and which have direct access from the outside of the building or through a common hall. For vacant units, the criteria of separateness and direct access are applied to the intended occupants wherever possible.

Both occupied and vacant housing units are included in the housing unit inventory, except that recreational vehicles, boats, vans, tents, railroad cars, and the like are included only if they are occupied as someone's usual place of residence. Vacant mobile homes are included provided they are intended for occupancy on the site where they stand. Vacant mobile homes on dealer's sales lots, at the factory, or in storage yards are excluded from the housing unit inventory.

Net Internal Migration - The difference between internal in-migration and internal out-migration. Internal in- and out-migration consist of moves where both the origin and the destination are within the United States (excluding Puerto Rico).

Net International Migration - International migration is defined as any movement across U.S. borders (50 states and District of Columbia). The U.S. Census Bureau estimates net international migration as: (1) net migration of the foreign born, (2) net movement from Puerto Rico, (3) net movement of the U.S. Armed Forces, and (4) emigration of the native born. The largest component, net migration of the foreign born, includes lawful permanent residents (immigrants), temporary migrants (such as students), humanitarian migrants (such as refugees), and people illegally present in the United States.

Population Estimate - The estimated population is the calculated number of people living in a county as of July 1. The estimated population is calculated from a components of change model that incorporates information on natural change (births, deaths) and net migration (net internal migration, net international migration) that occurred in a county since the Census 2000 reference date.

Residual - The residual results from the application of a national population control to state and county population estimates. The residual is the difference in state and county population before and after the application of the control. The residual is not a demographic component of population change.

Chapter 4
Population by Selected Age Groups and Sex; Sex Ratio; Median Age by Sex;
Population by Sex, Race, and Hispanic Origin; 2005

Variable Name	Description
<i>Total population by age</i>	
Pop0_4_05	Resident population under 5 years of age, 7/1/05
Pop5_13_05	Resident population aged 5 to 13 years, 7/1/05
Pop14_17_05	Resident population aged 14 to 17 years, 7/1/05
Pop15_44_05	Resident population aged 15 to 44 years, 7/1/05
Pop16plus05	Resident population aged 16 years and over, 7/1/05
Pop18_24_05	Resident population aged 18 to 24 years, 7/1/05
Pop18plus05	Resident population aged 18 years and over, 7/1/05
Pop45_64_05	Resident population aged 45 to 64 years, 7/1/05
Pop65plus05	Resident population aged 65 years and over, 7/1/05
Pop85plus05	Resident population aged 85 years and over, 7/1/05
Pct0_14_05	Percent of resident population aged 0 to 14 years, 7/1/05 $\text{Pct0_14_05} = 100((\text{Pop05} - \text{Pop15_44_05} - \text{Pop45_64_05} - \text{Pop65plus05}) / \text{Pop05}), \text{ rounded to two decimal places}$
Pct15_64_05	Percent of resident population aged 15 to 64 years, 7/1/05 $\text{Pct15_64_05} = 100((\text{Pop15_44_05} + \text{Pop45_64_05}) / \text{Pop05}), \text{ rounded to two decimal places}$
Pct65plus05	Percent of resident population aged 65 years and over, 7/1/05 $\text{Pct65plus} = 100(\text{Pop65plus05} / \text{Pop05}), \text{ rounded to two decimal places}$
Pct85plus05	Percent of resident population aged 85 years and over, 7/1/05 $\text{Pct85plus} = 100(\text{Pop85plus05} / \text{Pop05}), \text{ rounded to two decimal places}$
<i>Males by age</i>	
Male0_4_05	Male resident population under 5 years of age, 7/1/05
Male5_13_05	Male resident population aged 5 to 13 years, 7/1/05
Male14_17_05	Male resident population aged 14 to 17 years, 7/1/05

Male15_44_05	Male resident population aged 15 to 44 years, 7/1/05
Male16plus05	Male resident population aged 16 years and over, 7/1/05
Male18_24_05	Male resident population aged 18 to 24 years, 7/1/05
Male18plus05	Male resident population aged 18 years and over, 7/1/05
Male45_64_05	Male resident population aged 45 to 64 years, 7/1/05
Male65plus05	Male resident population aged 65 years and over, 7/1/05
Male85plus05	Male resident population aged 85 years and over, 7/1/05
Male05	Male resident population of all ages, 7/1/05
<i>Females by age</i>	
Fmale0_4_05	Female resident population under 5 years of age, 7/1/05
Fmale5_13_05	Female resident population aged 5 to 13 years, 7/1/05
Fmale14_17_05	Female resident population aged 14 to 17 years, 7/1/05
Fmale15_44_05	Female resident population aged 15 to 44 years, 7/1/05
Fmale16plus05	Female resident population aged 16 years and over, 7/1/05
Fmale18_24_05	Female resident population aged 18 to 24 years, 7/1/05
Fmale18plus05	Female resident population aged 18 years and over, 7/1/05
Fmale45_64_05	Female resident population aged 45 to 64 years, 7/1/05
Fmale65plus05	Female resident population aged 65 years and over, 7/1/05
Fmale85plus05	Female resident population aged 85 years and over, 7/1/05
Fmale05	Female resident population of all ages, 7/1/05
<i>Sex Ratio and Median age</i>	
SexRatio05	Sex Ratio, 7/1/05 SexRatio05 = Male05 / Fmale05, rounded to two decimal places
MedianAge05	Median age of total resident population, 7/1/05
Male_MdAge05	Median age of male resident population, 7/1/05
Fmale_MdAge05	Median age of female resident population, 7/1/05
<i>Total population by race</i>	
White05	White alone resident population, 7/1/05
Black05	Black alone resident population, 7/1/05
AIAN05	American Indian and Alaska Native alone resident population, 7/1/05
Asian05	Asian alone resident population, 7/1/05
NHOPI05	Native Hawaiian and other Pacific Islander alone resident

	population, 7/1/05
TwoPlus05	Resident population of two or more races, 7/1/05
PctWhite05	Percent of resident population white alone, 7/1/05 $\text{PctWhite05} = 100(\text{White05} / \text{Pop05})$, rounded to two decimal places
PctBlack05	Percent of resident population black alone, 7/1/05 $\text{PctBlack05} = 100(\text{Black05} / \text{Pop05})$, rounded to two decimal places
PctAIAN05	Percent of resident population American Indian and Alaska Native alone, 7/1/05 $\text{PctAIAN05} = 100(\text{AIAN05} / \text{Pop05})$, rounded to two decimal places
PctAsian05	Percent of resident population Asian alone, 7/1/05 $\text{PctAsian05} = 100(\text{Asian05} / \text{Pop05})$, rounded to two decimal places
PctNHOPi05	Percent of resident population Native Hawaiian and other Pacific Islander alone, 7/1/05 $\text{Pct NHOPi05} = 100(\text{NHOPi05} / \text{Pop05})$, rounded to two decimal places
PctTwoPlus05	Percent of resident population of two or more races, 7/1/05 $\text{PctTwoPlus05} = 100(\text{TwoPlus05} / \text{Pop05})$, rounded to two decimal places
<i>Non-Hispanics by race</i>	
NH_White05	Non-Hispanic white alone resident population, 7/1/05
NH_Black05	Non-Hispanic black alone resident population, 7/1/05
NH_AIAN05	Non-Hispanic American Indian and Alaska Native alone resident population, 7/1/05
NH_Asian05	Non-Hispanic Asian alone resident population, 7/1/05
NH_NHOPi05	Non-Hispanic Native Hawaiian and other Pacific Islander alone resident population, 7/1/05
NH_2plus05	Non-Hispanic resident population of two or more races, 7/1/05
NH05	Non-Hispanic resident population of all races, 7/1/05 $\text{NH05} = \text{NH_White05} + \text{NH_Black05} + \text{NH_AIAN05} +$

	NH_Asian05 + NH_NHOPI05 + NH_2plus05

<ftp://ftp.bls.gov/pub/special.requests/la/laucnty05.txt>

Missing Values

Eight cases are coded missing:

- Kalawao County, Hawaii which is not included in the original LAUS data
- Seven Louisiana parishes (Jefferson, Orleans, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, and St. Tammany) which are coded "N.A." in the original LAUS data

Terms and Definitions

Labor force - All persons classified as employed or unemployed as defined below.

Employed persons - Persons 16 years and over in the civilian non-institutional population who, during the reference week, (a) did any work at all (at least 1 hour) as paid employees; worked in their own business, profession, or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of the family; and (b) all those who were not working but who had jobs or businesses from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute, job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job. Excluded are persons whose only activity consisted of work around their own house (painting, repairing, or own home housework) or volunteer work for religious, charitable, and other organizations.

Unemployed persons - Persons aged 16 years and older who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment sometime during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate - The unemployment rate represents the number unemployed as a percent of the labor force.

Terms and Definitions

County Typology Codes - An area's economic and social characteristics have significant effects on its development and need for various types of public programs. To provide policy-relevant information about diverse county conditions to policymakers, public officials, and researchers, ERS has developed a new set of county-level typology codes that captures differences in economic and social characteristics. The 2004 County Typology classifies all U.S. counties according to six non-overlapping categories of economic dependence (2004 ERS Economic Type) and seven overlapping categories of policy-relevant themes (2004 ERS Policy Type).

ERS - The Department of Agriculture's Economic Research Service. ERS developed the county typology codes (ERS Economic Type and ERS Policy Type) and the Urban Influence and Rural-Urban Continuum Codes.

2004 ERS Economic Type - Six non-overlapping categories of economic dependence:

Farming-dependent: Either 15 percent or more of average annual labor and proprietors' earnings derived from farming during 1998-2000 or 15 percent or more of employed residents worked in farm occupations in 2000.

Mining-dependent: 15 percent or more of average annual labor and proprietors' earnings derived from mining during 1998-2000.

Manufacturing-dependent: 25 percent or more of average annual labor and proprietors' earnings derived from manufacturing during 1998-2000.

Federal/State government-dependent: 15 percent or more of average annual labor and proprietors' earnings derived from Federal and State government during 1998-2000.

Services-dependent: 45 percent or more of average annual labor and proprietors' earnings derived from services (SIC categories of retail trade; finance, insurance, and real estate; and services) during 1998-2000.

Non-specialized: did not meet the dependence threshold for any one of the above industries.

2004 ERS Policy Type - Seven overlapping categories of policy-relevant themes:

Housing stress: 30 percent or more of households had one or more of these housing conditions in 2000: lacked complete plumbing, lacked complete kitchen, paid 30 percent or more of income for owner costs or rent, or had more than 1 person per room.

Low-education: 25 percent or more of residents 25-64 years old had neither a high school diploma nor GED in 2000.

Low-employment: Less than 65 percent of residents 21-64 years old were employed in 2000.

Persistent poverty: 20 percent or more of residents were poor as measured by each of the last 4 censuses, 1970, 1980, 1990, and 2000.

Population loss: Number of residents declined both between the 1980 and 1990 censuses and between the 1990 and 2000 censuses.

Nonmetro recreation: Classified using a combination of factors, including share of employment or share of earnings in recreation-related industries in 1999, share of seasonal or occasional use housing units in 2000, and per capita receipts from motels and hotels in 1997.

Retirement destination: Number of residents 60 and older grew by 15 percent or more between 1990 and 2000 due to in-migration.

2003 ERS Rural-Urban Continuum Code - A classification scheme that distinguishes metropolitan (metro) counties by the population size of their metro area, and nonmetropolitan (nonmetro) counties by degree of urbanization and adjacency to a metro area or areas. The metro and nonmetro categories have been subdivided into three metro and six nonmetro groupings, resulting in a nine-part county codification. The codes allow researchers working with county data to break such data into finer residential groups beyond a simple metro-nonmetro dichotomy, particularly for the analysis of trends in nonmetro areas that may be related to degree of rurality and metro proximity.

All U.S. counties and county equivalents are grouped according to their official metro-nonmetro status announced by the Office of Management and Budget (OMB) in June 2003, when the population and worker commuting criteria used to identify metro counties were applied to results of the 2000 Census. Metro counties are distinguished by population size of the Metropolitan Statistical Area of which they are part. Nonmetro counties are classified according to the aggregate size of their urban population. Within the three urban size categories, nonmetro counties are further identified by whether or not they have some functional adjacency to a metro area or areas. A nonmetro county is defined as adjacent if it physically adjoins one or more metro areas, and has at least 2 percent of its employed labor force commuting to central metro counties. Nonmetro counties that do not meet these criteria are classed as nonadjacent.

2003 ERS Urban Influence Code - An area's geographic context has a significant effect on its development. Economic opportunities accrue to a place by virtue of both its size and its access to larger economies. And, access to larger economies—centers of information, communication, trade, and finance—enables a smaller economy to connect to national and international marketplaces. These relationships among economies are basic concepts of the central place theory commonly studied in regional economics. Population size, urbanization, and access to larger communities are often crucial elements in research dependent on county-level data sets. To further such research, ERS developed a set of county-level urban influence categories that captures some differences in economic opportunities.

The 3,141 counties in the United States are divided into 12 groups. Metro counties are divided into two groups according to population size—those in "large" areas with at least one million residents and those in "small" areas with fewer than one million residents. Nonmetropolitan micropolitan (micro) counties are divided into three groups according to their adjacency to metro areas: adjacent to a large metro area, adjacent to a small metro area, and not adjacent to a metro area. Nonmetropolitan nonmicropolitan (noncore) counties are divided into seven groups by their adjacency to metro or micro areas and whether or not they have a town or Census-defined place of at least 2,500 residents.

Urban influence codes group metro and nonmetro counties according to the official metro status announced by the Office of Management and Budget (OMB) in June 2003, based on population and commuting data from Census 2000. Nonmetro counties are defined as adjacent if they abut a metro area (noncore also if they abut a micro area) and have at least 2 percent of employed persons commuting to work in the core of the metro area (or in the micro area). When a nonmetro county met the adjacency criteria to more than one metro (or micro) area, it was designated as adjacent to the area to which the largest percentage of its workers commuted.

Census-defined places are considered to be towns in this classification. In addition, the independent cities of Virginia were combined with their counties of origin, and Kalawao County, Hawaii was combined with Maui County.

CA35_330_05	Personal current transfer receipts of nonprofit institutions: Receipts from businesses (\$1,000s), 2005

Variable Name	Description
CA35_340_05	Personal current transfer receipts of individuals from businesses (\$1,000s), 2005

Source

U.S. Department of Commerce. Bureau of Economic Analysis. Regional Economic Information System 1969-2005 (REIS). April 27, 2007. Tables CA05N (Personal income by major source and earnings by NAICS industry, 2005), CA06N (Compensation of employees by NAICS industry, 2005), CA25N (Total full-time and part-time employment by NAICS industry, 2005), CA30 (Regional economic profiles, 2005), and CA35 (Personal current transfer receipts, 2005).
<http://www.bea.gov/regional/docs/reis2005dvd.cfm>.

Computations

These variables were derived from 255 REIS data files, one file per table (CA05N, CA06N, CA25N, CA30, and CA35) and state (including the District of Columbia). The files have a separate record for each table cell (table line) with the cell's values for every year from 1969 to 2005. For a given year, each cell is represented by two variables, the first with the REIS estimate and the second with the estimate's disclosure code. The disclosure code indicates if the estimate is (1) not available for the year, (2) partially suppressed to avoid disclosure, (3) completely suppressed because it represents less than \$50,000 or ten jobs, or (4) completely suppressed without any information about the suppressed estimate. The estimate is coded zero if its disclosure code indicates that it was not available or was completely suppressed. If partial suppression is indicated, then only a portion of the true estimate is shown.

As it turned out, none of the REIS estimates included in *County Characteristics* was not available or partially suppressed. Consequently, ICPSR was able to represent each pair of estimate and disclosure code variables with a single variable in *County Characteristics* without any loss of information, as shown in Table 7.1.

Table 7. 1 Derivation of CA05N0010_05 to CA35_340_05 from the Original REIS Variable Pairs				
Original REIS estimate was coded:	Associated disclosure variable was coded:	Description of disclosure code	<i>County Characteristics</i> Variable is Coded:	
			SAS and Stata versions	ASCII and SPSS versions
Unsuppressed REIS estimate	0	Not suppressed	Unsuppressed REIS estimate	Unsuppressed REIS estimate
0	1	Suppressed to avoid disclosure	D	-1000000000
0	2	Less than \$50,000 or 10 jobs	L	-2000000000

Missing Values

1. As explained in Table 7.1, values that were suppressed to avoid disclosure were assigned the special missing data codes D or L in the SAS and Stata versions of the data. In the ASCII and SPSS versions, the codes -1000000000 and -2000000000 were used.

2. In the data source, Kalawao County, Hawaii is combined with Maui County, Hawaii and small independent cities of Virginia—generally those with less than 100,000 residents—are combined with an adjacent county. Since there are no separate REIS estimates for the counties that constitute these combinations, they were coded missing in *County Characteristics*. In the SAS and Stata versions of the data, they were assigned the special missing value code M, and in the ASCII and SPSS version they are coded -3000000000.

Terms and Definitions

Adjustment for residence - The net inflow of the earnings of inter-area commuters. The estimates of personal income are presented by the county of residence of the income recipients. However, the source data for most of the components of wage and salary disbursements, supplements to wages and salaries, and contributions for government social insurance are on a place-of-work basis. Consequently, a residence adjustment is made to convert the data to a place-of-residence basis.

Compensation of employees, received - Wage and salary disbursements plus supplements to wages and salaries.

Contributions for government social insurance - Subtracted in the calculation of personal income. Consist of employee and self-employed contributions for government social insurance and employer contributions for government social insurance.

Earnings by place of work - The sum of wage and salary disbursements, supplements to wages and salaries, and proprietors' income.

Employment - The number of full-time and part-time jobs by place of work. Full-time and part-time jobs are counted at equal weight. Employees, sole proprietors, and active partners are included, but unpaid family workers and volunteers are not.

Proprietors employment consists of the number of sole proprietorships and the number of partners in partnerships. The description "by place of work" applies to the wage and salary portion of the employment series and, with relatively little error, to the entire series. The proprietors employment portion of the series, however, is more nearly by place of residence because, for nonfarm sole proprietorships, the estimates are based on IRS tax data that reflect the address from which the proprietor's individual tax return is filed, which is usually the proprietor's residence. The nonfarm partnership portion of the proprietors employment series reflects the tax-filing address of the partnership, which may be either the residence of one of the partners or the business address of the partnership.

The employment estimates are designed to be consistent with the estimates of wage and salary disbursements and proprietors' income that are part of the personal income series. The employment estimates are based on the same sets of source data as the corresponding earnings estimates and are prepared with parallel methodologies. Two forms of proprietors' income—the income of limited partnerships and the income of tax-exempt cooperatives—have no corresponding employment estimates.

Farm proprietors - Farm self-employment is defined as the number of non-corporate farm operators, consisting of sole proprietors and partners. A farm is defined as an establishment that produces, or normally would be expected to produce, at least \$1,000 worth of farm products--crops and livestock--in a typical year. Because of the low cutoff point for this definition, the farm self-employment estimates are effectively on a full-time and part-time basis. The estimates are consistent with the job-count basis of the estimates of wage and salary employment because farm proprietors are counted without regard to any other employment. The distinction between place-of-work and place-of-residence is not significant because most farmers live on or near their land. Similarly, because of the annual production cycle of most farming, the distinctions between the point-in-time, the average annual, and the any-activity temporal concepts of employment measurement are not significant.

NAICS - The North American Industry Classification System was developed jointly by the United States, Canada, and Mexico to provide improved comparability in industrial statistics across North America. NAICS replaced the U.S. Standard Industrial Classification (SIC) system.

Net earnings by place of residence - Earnings by place of work *less* contributions for government social insurance, *plus* an adjustment to convert earnings by place of work to a place of residence basis.

Nonfarm proprietors - Nonfarm self-employment consists of the number of sole proprietorships and the number of individual business partners not assumed to be limited partners. The nonfarm self-employment estimates resemble the wage and salary employment estimates in that both series measure jobs--as opposed to workers--on a full-time and part-time basis. However, because of limitations in source data, two important measurement differences exist between the two sets of estimates. First, the self-employment estimates are largely on a place-of-residence basis rather than on the preferred place-of-work basis. Second, the self-employment estimates reflect the total number of sole proprietorships or partnerships active at any time during the year--as opposed to the annual average measure used for wage and salary employment.

Personal current transfer receipts - This component of personal income is payments to persons for which no current services are performed. It consists of payments to individuals and to nonprofit institutions by Federal, state, and local governments and by businesses. Government payments to individuals include retirement and disability insurance benefits, medical benefits (mainly Medicare and Medicaid), income maintenance benefits, unemployment insurance compensation, veterans' benefits, and Federal education and training assistance. Government payments to nonprofit institutions exclude payments by the Federal Government for work under research and development contracts. Business payments to persons consist primarily of liability payments for personal injury and of corporate gifts to nonprofit institutions.

Personal income - Income that is received by all persons from all sources. It is calculated as the sum of wage and salary disbursements, supplements to wages and salaries, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and personal current transfer receipts, less contributions for government social insurance.

The personal income of an area is the income that is received by, or on behalf of, all the individuals who live in the area.

Personal income = net earnings by place of residence + dividends, interest, and rent + personal current transfer receipts

Population (persons) - The Census Bureau's March 2007 estimate of the population on July 1, 2005. Note that CA05N0020_05 is not identical to Pop05. CA05N0020_05 is a revision of Pop05.

Additional Notes

The variable names have the form TL_05 or T_L_05, where T is the REIS table identifier and L is the line number within the table.

For heuristic purposes, examples of the complete REIS tables are provided below.

Footnotes for Table CA05 (NAICS)

1. The estimates of earnings for 2001-2005 are based on the 2002 North American Industry Classification System (NAICS).
 2. Census Bureau midyear population estimates. Estimates for 2001-2005 reflect county population estimates available as of March 2007.
 3. Contributions for government social insurance are included in earnings by type and industry but they are excluded from personal income.
 4. The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: Wage and salary disbursements to U.S. residents commuting to Canada less wage and salary disbursements to Canadian and Mexican residents commuting into the United States.
 5. Rental income of persons includes the capital consumption adjustment.
 6. Proprietors' income includes the inventory valuation adjustment and capital consumption adjustment.
 7. "Other" consists of wage and salary disbursements to U.S. residents employed by international organizations and foreign embassies and consulates in the United States.
 8. Broomfield County, CO, was created from parts of Adams, Boulder, Jefferson, and Weld counties effective November 15, 2001. Estimates for Broomfield county begin with 2002.
- All state and local area dollar estimates are in current dollars (not adjusted for inflation).
 - E – The estimate shown here constitutes the major portion of the true estimate.
 - (D) Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals.
 - (L) Less than \$50,000, but the estimates for this item are included in the totals.
 - (N) Data not available for this year.

330	Receipts from businesses	15,365
340	Current transfer receipts of individuals from businesses 12/	23,339

Footnotes for Table CA35

1. Consists largely of temporary disability payments and black lung payments.
 2. Consists of medicaid and other medical vendor payments.
 3. Consists of payments made under the TriCare Management Program (formerly called CHAMPUS) for the medical care of dependents of active duty military personnel and of retired military personnel and their dependents at nonmilitary medical facilities.
 4. Through 1995, consists of emergency assistance and aid to families with dependent children. For 1998 forward, consists of benefits— generally known as temporary assistance for needy families— provided under the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. For 1996–97, consists of payments under all three of these programs.
 5. Consists largely of general assistance, refugee assistance, foster home care and adoption assistance, earned income tax credits, and energy assistance.
 6. Consists of trade readjustment allowance payments, Redwood Park benefit payments, public service employment benefit payments, and transitional benefit payments.
 7. Consists largely of veterans' readjustment benefit payments, educational assistance to spouses and children of disabled or deceased veterans, payments to paraplegics, and payments for autos and conveyances for disabled veterans.
 8. Consists of State and local government payments to veterans.
 9. Consists largely of federal fellowship payments (National Science Foundation fellowships and traineeships, subsistence payments to State maritime academy cadets, and other federal fellowships), interest subsidy on higher education loans, basic educational opportunity grants, and Job Corps payments.
 10. Consists largely of Bureau of Indian Affairs payments, education exchange payments, Alaska Permanent Fund dividend payments, compensation of survivors of public safety officers, compensation of victims of crime, disaster relief payments, compensation for Japanese internment, and other special payments to individuals.
 11. Consists of State and local government educational assistance payments to nonprofit institutions, and other State and local government payments to nonprofit institutions.
 12. Consists largely of personal injury payments to individuals other than employees and other business transfer payments.
 13. Cibola, NM was separated from Valencia in June 1981, but in these estimates, Valencia includes Cibola through the end of 1981.
 14. La Paz County, AZ was separated from Yuma County on January 1, 1983. The Yuma, AZ MSA contains the area that became La Paz County, AZ through 1982 and excludes it beginning with 1983.
 15. Estimates for 1979 forward reflect Alaska Census Areas as defined by the Census Bureau; those for prior years reflect Alaska Census Divisions as defined in the 1970 Decennial Census. Estimates from 1988 forward separate Aleutian Islands Census Area into Aleutians East Borough and Aleutians West Census Area. Estimates for 1991 forward separate Denali Borough from Yukon-Koyukuk Census Area and Lake and Peninsula Borough from Dillingham Census Area. Estimates from 1993 forward separate Skagway-Yakutat-Angoon Census Area into Skagway-Hoonah-Angoon Census Area and Yakutat Borough.

KöppenClass:

Briggs, R.S., Lucas, R.G., and Taylor, T.; Climate Classification for Building Energy Codes and Standards: Part 2 - Zone Definitions, Maps and Comparisons. Technical and Symposium Papers, ASHRAE Winter Meeting, Chicago, IL, January, 2003. Table 1B.

ClimateRegion:

U.S. Department of Energy. Building America Climate Regions by Counties of the United States. Version 3, June 26, 2006.
http://www.eere.energy.gov/buildings/building_america/docs/master_list_climate_regions_july2006.xls

Computations

1. KöppenClass is based on Table 1B in the Briggs, Lucas, and Taylor article which shows the association between the 2004 IECC climate zones and the Köppen classes.

2. Hempstead and Sevier Counties, Arkansas and Palo Pinto County, Texas were coded 0 (not warm-humid) for WarmHumid. The data source (the ICC proposal) was ambiguous about the appropriate code. All three counties are listed as warm-humid counties in the ICC proposal, but the attached map shows them outside of the warm-humid area. The map was followed because the three counties are included in the Building America Hot-Humid Climate Region, which has the same definition as the 2004 IECC warm-humid counties.

3. ClimateRegion was recoded from “Mixed-Humid” to “Hot-Humid” for five counties in southern Mississippi: Hancock, Harrison, Jackson, Pearl River, and Stone. These counties were recoded because they are shown in the Hot-Humid region on the Building America maps published by the Department of Energy. Additionally, they are classified as 2004 IECC warm-humid counties, which have the same definition as the Building America Hot-Humid Climate Region.

4. ClimateRegion was recoded from “Cold” to “Marine” for Island County and San Juan County, Washington. These counties were recoded because they are located in the Marine Region on the Building America maps published by the Department of Energy. Additionally, they are classified as marine counties in the 2004 IECC Climate Zone classification, which have the same definition as the Building America Marine Climate Region.

5. ClimateRegion was recoded from “Cold” to “Mixed-Dry” for Cibola County, New Mexico because it is shown in the Mixed-Dry region on the Building America maps published by the Department of Energy.

Missing Values

JanTemp to AmenityRank are coded missing for Alaska, Hawaii, and five Colorado counties: Adams, Boulder, Broomfield, Jefferson, and Weld. The data source did not have data for Alaska and Hawaii and predated the creation in 2001 of Broomfield County, Colorado from parts of Adams, Boulder, Jefferson, and Weld Counties.

Terms and Definitions

ERS - Economic Research Service of the U.S. Department of Agriculture

IECC - International Energy Conservation Code

ERS Natural Amenity Scale - Developed by the Economic Research Service of the Department of Agriculture, this scale is an index of the physical characteristics of a

county that enhance it as a place to live. The scale was constructed by combining six measures of climate, topography, and water area taken to reflect environmental qualities that most people prefer. Warm winter, winter sun, temperate summer, low summer humidity, topographic variation, and water area constitute the six measures. Construction of the scale is described in David McGranahan's article "Natural Amenities Drive Rural Population Change" (Agricultural Economic Report No. 781, October 1999).

2004 IECC (Supplement to 2003 IECC) Climate Zone - This climate classification was developed by Robert S. Briggs, Robert G. Lucas, and Z. Todd Taylor (see the article cited as the source of KoppenClass). The Department of Energy was the primary force behind its adoption by the International Code Council in 2004. Described in Tables 8.1 and 8.2, the code is based on major climate type definitions (moist, dry, and marine) and thermal criteria (heating degree days (HDD) and cooling degree days (CDD)).

Table 8.1 Major Climate Type Definitions of 2004 IECC Climate Zones (United States only)	
Marine (C) definition - Locations meeting the following four criteria: <ol style="list-style-type: none"> 1. Mean temperature of coldest month between 27°F and 65°F 2. Warmest month mean temperature < 72°F 3. At least four months with mean temperatures over 50°F 4. Dry season in summer. The month with the heaviest precipitation during October through March has at least three times as much precipitation as the month with the least precipitation during the rest of the year. 	
Dry (B) definition - Locations meeting the following criteria: Not Marine and $P < 0.44 \times (T - 19.5)$, where: <p style="margin-left: 40px;">P = annual precipitation in inches T = annual mean temperature in Fahrenheit</p>	
Moist (A) definition - Locations that are not Marine and not Dry.	

Table 8.2 Thermal Criteria of 2004 IECC Climate Zones (United States only)			
Zone	Climate zone name and type	Thermal criteria	Corresponding Köppen classification
1A	Very Hot – Moist	$9000 < \text{CDD}_{50^{\circ}\text{F}}$	Tropical Wet-and-Dry
2A	Hot – Moist	$6300 < \text{CDD}_{50^{\circ}\text{F}} \leq 9000$	Humid Subtropical (Warm Summer)
2B	Hot – Dry	$6300 < \text{CDD}_{50^{\circ}\text{F}} \leq 9000$	Arid Subtropical
3A	Warm – Moist	$4500 < \text{CDD}_{50^{\circ}\text{F}} \leq 6300$ and $\text{HDD}_{65^{\circ}\text{F}} \leq 5400$	Humid Subtropical (Warm Summer)
3B	Warm – Dry	$4500 < \text{CDD}_{50^{\circ}\text{F}} \leq 6300$ and $\text{HDD}_{65^{\circ}\text{F}} \leq 5400$	Semiarid Middle Latitude/Arid Subtropical/Highlands
3C	Warm – Marine	$\text{HDD}_{65^{\circ}\text{F}} \leq 3600$	Dry Summer Subtropical (Mediterranean)
4A	Mixed – Moist	$\text{CDD}_{50^{\circ}\text{F}} \leq 4500$ and $\text{HDD}_{65^{\circ}\text{F}} \leq 5400$	Humid Subtropical/Humid Continental (Warm Summer)
4B	Mixed – Dry	$\text{CDD}_{50^{\circ}\text{F}} \leq 4500$ and $\text{HDD}_{65^{\circ}\text{F}} \leq 5400$	Semiarid Middle Latitude/Arid Subtropical/Highlands
4C	Mixed – Marine	$3600 < \text{HDD}_{65^{\circ}\text{F}} \leq 5400$	Marine (Cool Summer)
5A	Cool – Moist	$5400 < \text{HDD}_{65^{\circ}\text{F}} \leq 7200$	Humid Continental (Warm Summer)
5B	Cool – Dry	$5400 < \text{HDD}_{65^{\circ}\text{F}} \leq 7200$	Semiarid Middle Latitude/Highlands
6A	Cold – Moist	$7200 < \text{HDD}_{65^{\circ}\text{F}} \leq 9000$	Humid Continental (Warm /Cool Summer)
6B	Cold – Dry	$7200 < \text{HDD}_{65^{\circ}\text{F}} \leq 9000$	Semiarid Middle Latitude/Highlands
7	Very cold	$9000 < \text{HDD}_{65^{\circ}\text{F}} \leq 12,600$	Humid Continental (Cool Summer)
8	Subarctic	$12,600 < \text{HDD}_{65^{\circ}\text{F}}$	Subarctic

2004 IECC (supplement to 2003 IECC) warm-humid counties - The warm-humid/not warm-humid dichotomy comprises an additional dimension of the 2004

IECC classification. A county is classified as warm-humid if either of the following conditions occur.

- 1) 67°F or higher wet-bulb temperature for 3,000 or more hours during the warmest six consecutive months of the year;
- 2) 73°F or higher wet-bulb temperature for 1,500 or more hours during the warmest six consecutive months of the year.

Building America Climate Regions - Developed by the Department of Energy for the Building America Partnership, these regions are very similar to the 2004 IECC classifications.

Table 8.3 Building America Climate Regions	
Region	Definition
Hot-Humid	Generally defined as a region that receives more than 20 inches of annual precipitation and where one or both of the following occur: 1. 67°F or higher wet bulb temperature for 3,000 or more hours during the warmest 6 consecutive months of the year. 2. 73°F or higher wet bulb temperature for 1,500 or more hours during the warmest 6 consecutive months of the year.
Hot-Dry	Generally defined as a region that receives less than 20 inches of annual precipitation and where the monthly average temperature remains above 45°F throughout the year
Mixed-Humid	Generally defined as a region that receives more than 20 inches of annual precipitation, has approximately 5,400 heating degree days (65°F basis) or less, and has an average monthly temperature that drops below 45°F during the winter months.
Mixed-Dry	Generally defined as a region that receives less than 20 inches of annual precipitation, has approximately 5,400 heating degree days (65°F basis) or less, and has an average monthly temperature that drops below 45°F during the winter months.
Marine	Generally defined as a region that meets all of the following criteria: 1. A mean temperature of the coldest month between 27°F and 65°F 2. A warmest month mean of less than 72°F 3. At least 4 months with mean temperatures more than 50°F 4. A dry season in summer. The month with the heaviest precipitation in the cold season (October through March) has at least three times as much precipitation as the month with the least precipitation in the rest of the year.
Cold	Generally defined as a region with approximately 5,400 heating degree days (65°F basis) or more and fewer than approximately 9,000 heating degree days (65°F basis).

Very Cold	Generally defined as a region with approximately 9,000 heating degree days (65°F basis) or more and fewer than approximately 12,600 heating degree days (65°F basis).
Subarctic	Generally defined as a region with approximately 12,600 heating degree days (65° basis) or more

Chapter 9

Federal Government Expenditures, Fiscal Year 2004

Variable Name	Description
<i>Direct expenditures or obligations</i>	
CFFR_DR04	Federal direct expenditures or obligations: Retirement/disability payments for individuals, fiscal year 2004
CFFR_DO04	Federal direct expenditures or obligations: Other direct payments for individuals, fiscal year 2004
CFFR_DX04	Federal direct expenditures or obligations: Direct payments other than for individuals, fiscal year 2004
CFFR_GG04	Federal direct expenditures or obligations: Grants (block, formula, project, and cooperative agreements) , fiscal year 2004
CFFR_PC04	Federal direct expenditures or obligations: Procurement contracts, fiscal year 2004
CFFR_SW04	Federal direct expenditures or obligations: Salaries and wages, fiscal year 2004
CFFR_Dir04	Total federal direct expenditures or obligations, fiscal year 2004
<i>Direct expenditures or obligations broken down by defense and non-defense</i>	
CFFR_Def04	Federal direct expenditures or obligations: Defense, fiscal year 2004
CFFR_NDef04	Federal direct expenditures or obligations: Non-Defense, fiscal year 2004
<i>Other federal assistance</i>	
CFFR_DL04	Other federal assistance: Direct loans, fiscal year 2004
CFFR_GL04	Other federal assistance: Guaranteed/insured loans, fiscal year 2004
CFFR_II04	Other federal assistance: Insurance, fiscal year 2004
CFFR_Oth04	Total other federal assistance, fiscal year 2004

Source

U.S. Department of Commerce. Bureau of the Census. Consolidated Federal Funds Report, 2004. Data file 04CFFCOM.TXT. No date given. Accessed May 18, 2007.
<http://ftp2.census.gov/govs/cffr/04cffcom.zip>

Computations

These variables were computed by aggregating expenditure items in the source data file, which has a separate record for each type of expenditure (object type) by each federal agency within each county component. Expenditures and obligations that were not allocated to counties in the CFFR data (“state undistributed” and “U.S. undistributed”) were excluded from the variables. Thus, the sum of the expenditures and obligations by county is less than the national total.

Missing Values

The five counties that constitute New York City, New York (Bronx, Kings, New York, Queens, and Richmond) were coded missing because the CFFR data are only presented for the city as whole and not its counties separately.

Terms and Definitions

Direct expenditures or obligations for defense - Direct expenditures or obligations by the following agencies:

- Department of the Navy
- Department of the Army
- Department of the Air Force
- U.S. Corps of Engineers--(civil)
- Department of Defense as a whole and components, other than the military departments reporting to the Secretary of Defense

Additional Notes

1. For grants, users should note that some dollar amounts appear at the counties containing the state capitals. This reflects the coding of grants to the state governments, even when such grants represent payments that are subsequently passed through to local jurisdictions, or represent programs that are spread out over all areas of the state in terms of financial impact. While an attempt is made in the CFFR to assign the dollar amounts for these pass-through programs to locations other than the state capital, it was not possible to do so in all cases.
2. All funds received within a given municipality are assigned to only one county, even when the municipality exists in more than one county.
3. The data for Gallatin and Park Counties, Montana exclude \$39,855 retirement and disability expenditure, \$391 other direct payments for individuals, and \$6,000 procurement contracts expenditure for Yellowstone National Park, which became part of Gallatin County and Park Counties in 1999.

Chapter 10

Local Government Revenue and Expenditures, 2001-2002 Fiscal Year

Variable Name	Description
PropTax02	Local government property tax revenue (\$1,000s) , 2001-2002 fiscal year
PropTaxPerCap02	Local government property tax revenue per capita, 2001-2002 fiscal year PropTaxPerCap02 = 1,000(PropTax02/ Pop02), rounded to two decimal places
LocTax02	Local government tax revenue (\$1,000s), 2001-2002 fiscal year
LocTaxPerCap02	Local government tax revenue per capita, 2001-2002 fiscal year LocTaxPerCap02 = 1,000(LocTax02/ Pop02), rounded to two decimal places
LocRev02	Local government general revenue (\$1,000s), 2001-2002 fiscal year
LocExp02	Local government direct general expenditures (\$1,000s), 2001-2002 fiscal year

Sources

U.S. Department of Commerce. Bureau of the Census. 2002 Census of Governments. County-Area File - Public Use Format.
2002_Census_State_County.txt. No date given. Accessed June 15, 2007.
<http://www.census.gov/govs/estimate/02countyarea.zip>

U.S. Department of Commerce. Bureau of the Census. 2002 Census of Governments. Directory Information File - County Area. 02countyareagid.txt. No date given. Accessed June 15, 2007.
<http://www.census.gov/govs/estimate/02countyareagid.zip>

Computations

1. LocExp02, LocRev02, and LocTax_02 were computed by aggregating revenue or expenditure items in the data source, which has a separate record for each revenue and expenditure item in every county.
2. PropTaxPerCap02 and LocTaxPerCap02 were computed as shown above.

Missing Values

The five counties that constitute New York City (Bronx, Kings, New York, Queens, and Richmond) were coded missing because the 2002 Census of Governments data are only presented for the city as whole. In addition, Kalawao County, Hawaii is coded missing because it had no local governments and, hence, was not included in the data source.

Terms and Definitions

Local government direct general expenditure - All expenditures of local governments except intergovernmental payments, utility and liquor store expenditures, and employee retirement and other insurance-trust expenditures.

Local government general revenue - All revenues of local governments except liquor store, utility, or insurance trust revenue. General revenue includes taxes, intergovernmental revenue, and other miscellaneous revenue.

Local governments - County, municipal, township, special district, and school district governments.

Local government tax revenue – All taxes exacted by local governments other than special assessments for capital improvements and contributions or "taxes" for retirement and social insurance systems. Comprises amounts received (including interest and penalties) from taxes imposed by a government and collected by that government or collected on its behalf by another government serving as its agent. Tax revenue includes property tax, sales and gross receipts taxes, license taxes, and income taxes.

Chapter 11

Crimes Reported to Police, 2004

These variables were derived from a data file prepared by ICPSR's National Archive of Criminal Justice Data (NACJD). Though the NACJD file is based on data compiled by the Uniform Crime Reporting Program (UCR) at the Federal Bureau of Investigation (FBI), **these variables are not official government statistics.**

Variable Name	Description
CrimePop04	County population of agencies reporting crimes, 2004
IdxCrime04	Total number of index crimes reported to police, 2004
M_IdxCrime04	Total number of index crimes reported to police plus arson, 2004
Muder04	Number of murders reported to police, 2004
Rape04	Number of rapes reported to police, 2004
Robbery04	Number of robberies reported to police, 2004
Assault04	Number of aggravated assaults reported to police, 2004
Burglary04	Number of burglaries reported to police, 2004
Larceny04	Number of larcenies reported to police, 2004
MVTheft04	Number of motor vehicle thefts reported to police, 2004
Arson04	Number of arsons reported to police, 2004
CrimeRate04	Index crime rate (per 100,000 persons), 2004 $\text{CrimeRate04} = 100,000(\text{IdxCrime04}/\text{CrimePop04})$, rounded to two decimal places.

Source

U.S. Dept. of Justice, Federal Bureau of Investigation. Uniform Crime Reporting Program Data [United States]: County-Level Detailed Arrest and Offense Data, 2004 [Computer file]. ICPSR04466-v1. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [producer and distributor], 2006-07-26. DS4 (Crimes Reported).

Computations

1. CrimeRate04 was computed as shown above.
2. The data source has separate records for the formerly independent cities of Clifton Forge and South Boston, Virginia. To maintain compatibility with the current county definitions, the data for Clifton Forge was merged with the data for Alleghany County, Virginia and the data for South Boston was merged with the data for Halifax County, Virginia.

Missing Values

1. ICPSR 4466 uses zero as a missing value code and as a valid, non-missing code. To facilitate data analyses, the zeros that denote a missing value were recoded to missing. In consultation with the NACJD staff, zero was recoded to missing if CrimePop04 to Arson04 were all coded zero in the data source and no agency reported crimes for at least one month.
2. All of the counties in Alaska and Connecticut were recoded to missing because the crimes reported by their state police departments were not allocated to counties in the data source (those crimes are reported in separate records instead of being included in the county records).
3. All of the counties in Illinois were recoded to missing because the Illinois data were very incomplete. The police departments of Aurora, Chicago, Joliet, Naperville, Peoria, Rockford, and Springfield were the only reporting agencies in the state.
4. CrimeRate04 is coded missing if CrimePop04 equals zero.

Terms and Definitions

County population of agencies reporting crimes - County population covered by the crime reporting agencies that reported for at least one month of the year, except for agencies—such as some national parks, colleges and universities, toll bridges and tunnels, and most state police departments—that do not have a population associated with their jurisdiction in the original UCR data. If all of the reporting agencies for a county are such “non-population” agencies, then CrimePop04 will equal zero even though crimes may be reported in the county.

Index crimes - Murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

Additional Notes

1. Crimes reported in New York City were allocated to its five counties (boroughs) in proportion to the population of each county.
2. Crimes reported in the City of Goodlettsville, Tennessee were allocated to Davidson County and Sumner County in proportion to its population in each county.
3. The New York and New Jersey data exclude crimes reported by the New York/New Jersey Port Authority: 937 index crimes.

Chapter 12

2004 Presidential Election Results

Variable Name	Description
TotalVotes04	2004 presidential election: Total votes TotalVotes04 = BushVotes04 + KerryVotes04 + OtherVotes04
BushVotes04	2004 presidential election: Votes for Bush
KerryVotes04	2004 presidential election: Votes for Kerry
OtherVotes04	2004 presidential election: Votes for other candidates
PctBush04	2004 presidential election: Percent of votes for Bush $PctBush04 = 100(BushVotes04/TotalVotes04)$ rounded to two decimal places
PctKerry04	2004 presidential election: Percent of votes for Kerry $PctKerry04 = 100(KerryVotes04/TotalVotes04)$ rounded to two decimal places
PctOther04	2004 presidential election: Percent of votes for other candidates $PctOther04 = 100(OtherVotes04/TotalVotes04)$ rounded to two decimal places

Computations

1. BushVotes04, KerryVotes04, and OtherVotes04 were copied from the Stewart file. However, more than 500 values of these variables (some 170 values of BushVotes04, 150 of KerryVotes04, and 230 of OtherVotes04) were revised using data from other sources:

- Some values for counties in Colorado, Illinois, Montana, New Jersey, Ohio, and West Virginia were replaced with official election results published by those states (see list above).
- Some values for counties in California, Georgia, Hawaii, Idaho, Maine, Mississippi, Missouri, New York, Rhode Island, and Tennessee were replaced with election results published in various Wikipedia articles (see list above).
- Some values for counties in Mississippi were revised per the election results published by CNN's 2004 presidential election Web site: America Votes 2004.

2. TotalVotes04, PctBush04, PctKerry04, and PctOther04 were computed as shown above.

Missing Values

Kalawao County, Hawaii and all of the counties in Alaska are coded missing. The data sources do not have a record for Kalawao County and report the Alaska returns by election districts instead of counties.

Additional Notes

As a quality control measure, the state totals for BushVotes04, KerryVotes04, and OtherVotes04 were compared with the state totals reported by the Federal Elections Commission (Federal Elections Commission. *Federal Elections 2004: Election Results for the U.S. President, the U.S. Senate and the U.S. House of*

Representatives. Washington, D.C. May 2005). This revealed a number of discrepancies:

- Alabama. The sum of OtherVotes04 for Alabama is 34 less than the state total reported by the Federal Elections Commission. According to Dave Leip's Atlas of U.S. Presidential Elections (<http://www.uselectionatlas.org>), OtherVotes04 for DeKalb County, Alabama should be 173 instead of 139 shown in the file, which accounts for the difference.
- California. The sum of OtherVotes04 for California is 499 less than the state total reported by the Federal Elections Commission.
- Kentucky. The sum of OtherVotes04 for Kentucky is 22 less than the state total reported by the Federal Elections Commission.
- Mississippi. The sum of OtherVotes04 for Mississippi is 6 more than the state total reported by the Federal Elections Commission.
- The sum of OtherVotes04 for Montana is 11 less than the state total reported by the Federal Elections Commission.
- For Pennsylvania, OtherVotes04 includes the votes for Badnarik, Cobb, and Peroutka, but excludes the votes for Nader and others which amounted to 3,826 votes statewide. Consequently, the sum of OtherVotes04 for Pennsylvania is 3,826 less than the state total reported by the Federal Elections Commission.
- For Rhode Island, the sum of KerryVotes04 is 5 less than the state total reported by the Federal Elections Commission and the sum of OtherVotes04 is 5 more than the state total reported by the Commission.
- The sum of OtherVotes04 for Texas is 16 less than the state total reported by the Federal Elections Commission.

Chapter 13
New Privately-Owned Residential Housing Units Authorized by Building Permits, 2005

Variable Name	Description
P1Bldg05	New privately-owned residential housing units authorized by building permits: Single family houses (estimates with imputation), 2005
P1Units05	New privately-owned residential housing units authorized by building permits: Units in single family houses (estimates with imputation), 2005
P1Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of single family houses (estimates with imputation), 2005
P2Bldg05	New privately-owned residential housing units authorized by building permits: 2-family buildings (estimates with imputation), 2005
P2Units05	New privately-owned residential housing units authorized by building permits: Units in 2-family buildings (estimates with imputation), 2005
P2Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 2-family buildings (estimates with imputation), 2005
P3Bldg05	New privately-owned residential housing units authorized by building permits: 3-4 family buildings (estimates with imputation) , 2005
P3Units05	New privately-owned residential housing units authorized by building permits: Units in 3-4 family buildings (estimates with imputation), 2005
P3Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 3-4 family buildings (estimates with imputation), 2005
P5Bldg05	New privately-owned residential housing units authorized by building permits: 5+ family buildings (estimates with imputation), 2005
P5Units05	New privately-owned residential housing units authorized by building permits: Units in 5+ family buildings (estimates with imputation), 2005
P5Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 5+ family buildings (estimates with imputation), 2005
P_Bldg05	New privately-owned residential housing units authorized by building permits: Total number of buildings (estimates with imputation), 2005 $P_Bldg05 = P1Bldg05 + P2Bldg05 + P3Bldg05 + P5Bldg05$

Variable Name	Description
P_Units05	New privately-owned residential housing units authorized by building permits: Total number of units (estimates with imputation), 2005 $P_Units05 = P1Units05 + P2Units05 + P3Units05 + P5Units05$
P_Cost05	New privately-owned residential housing units authorized by building permits: Total construction cost (estimates with imputation) , 2005 $P_Cost05 = P1Cost05 + P2Cost05 + P3Cost05 + P5Cost05$
P1BldgR05	New privately-owned residential housing units authorized by building permits: Single family houses (reported only), 2005
P1UnitsR05	New privately-owned residential housing units authorized by building permits: Units in single family houses (reported only), 2005
P1CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of single family houses (reported only), 2005
P2BldgR05	New privately-owned residential housing units authorized by building permits: 2-family buildings (reported only), 2005
P2UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 2-family buildings (reported only), 2005
P2CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 2-family buildings (reported only), 2005
P3BldgR05	New privately-owned residential housing units authorized by building permits: 3-4 family buildings (reported only), 2005
P3UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 3-4 family buildings (reported only), 2005
P3CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 3-4 family buildings (reported only), 2005
P5BldgR05	New privately-owned residential housing units authorized by building permits: 5+ family buildings (reported only), 2005
P5UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 5+ family buildings (reported only), 2005
P5CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 5+ family buildings (reported only), 2005
P_BldgR05	New privately-owned residential housing units authorized by building permits: Total number of buildings (reported only), 2005 $P_BldgR05 = P1BldgR05 + P2BldgR05 + P3BldgR05 + P5BldgR05$

Variable Name	Description
P_UnitsR05	New privately-owned residential housing units authorized by building permits: Total number of units (reported only), 2005 $P_UnitsR05 = P1UnitsR05 + P2UnitsR05 + P3UnitsR05 + P5UnitsR05$
P_CostR05	New privately-owned residential housing units authorized by building permits: Total construction cost (reported only), 2005 $P_CostR05 = P1CostR05 + P2CostR05 + P3CostR05 + P5CostR05$
P_Miss05	Did the county have a record in the building permits data source? <u>Code</u> <u>Description</u> 0 No 1 Yes

Source

U.S. Department of Commerce. Bureau of the Census. Manufacturing and Construction Division, Residential Construction Branch. CO2005A.txt. 2005 Annual County Level Residential Building Permit Statistics. No date given. Received from the Census Bureau on June 18, 2007.

Computations

1. If a county did not have a record in the data source, P_Bldg05 to P_CostR05 were coded zero. Altogether, 119 counties were missing in the data source. P_Miss05 identifies the missing counties.
2. P_Bldg05, P_Units05, P_Cost05, P_BldgR05, P_UnitsR05, and P_CostR05 were computed as shown above.

Missing Values

There are no missing values for these variables.

Terms and Definitions

Building permits represent the number of new privately-owned housing units authorized by building permits in the United States. A housing unit is house, an apartment, a group of rooms or a single room intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have a direct access

from the outside of the building or through a common hall. In accordance with this definition, each apartment unit in an apartment building is counted as one housing unit. Housing units, as distinguished from "HUD-code" manufactured (mobile) homes, include conventional "site-built" units, prefabricated, panelized, componentized, sectional, and modular units. Group quarters (such as dormitories and rooming houses), transient accommodations (such as transient hotels, motels, and tourist courts), "HUD-code" manufactured (mobile) homes, moved or relocated units, and housing units created in an existing residential or nonresidential structure are excluded.

Construction cost - The sum of the estimated valuation of construction on each building permit authorized by local permit-issuing jurisdictions. Detailed recent evidence is lacking as to how closely the valuation recorded for building permit purposes approximates the dollar amount of construction work involved.

Reported only/estimates with imputation -The building permit statistics are based upon reports submitted by local building permit officials in response to a mail survey. The data are obtained using Form C-404, "Report of New Privately-Owned Residential Building or Zoning Permits Issued." When a report is not received, the missing residential data are either (1) imputed or (2) obtained from the Survey of Use of Permits (SUP) which is used to collect information on housing starts. Data from the SUP are available only for about 850 places for which Census Bureau interviewers list and sample the permits that authorized construction of new residential structures

Single family houses - All new privately-owned attached and detached single-family houses. If attached, (1) each unit is separated from adjoining units by a wall that extends from ground to roof, (2) no unit is above or below another unit, and (3) each unit has separate heating and separate utility meters.

Two-family buildings / three- and four-family buildings / five-or-more family buildings - All new privately-owned buildings that contain two, three or four, or five or more housing units, which may be one above the other or side-by-side. If built side-by-side, they (1) do not have a wall that extends from ground to roof or (2) share a heating system, or (3) have interstructural public utilities such as water supply/sewage disposal.

Additional Notes

1. Five states reported some data that was not distributed by county in the data source, as shown in Table 13.1.

Table 13.1 States with Permits Data Not Distributed by County	
State	Amount of Data Not Distributed by County
Alaska	234 single family homes (construction cost = \$44,997,132)
Maine	231 single family homes (construction cost= \$30,676,845)
Michigan	273 single family homes (construction cost = \$11,997,208)
New Mexico	2,057 single family homes (construction cost = \$441,564,955) and one four-unit building (construction cost = \$1,300,000)
Oregon	309 single family homes (construction cost = \$54,267,820)

2. The building permits variables only cover housing authorized by building or zoning permits. Areas that do require a permit are not represented. For the nation as a whole, less than five percent of all privately owned housing units are constructed in areas that do not require building permits. In addition, a study spanning four years showed that about three percent of the single-family houses built in permit-issuing places were built without a permit.

3. Current surveys indicate that construction is undertaken for all but a very small percentage of housing units authorized by building permits. Construction typically gets under way during the month of permit issuance, but not always. Because of this lag, the housing unit authorization statistics do not represent the number of units actually put into construction for the period shown, and should therefore not be directly interpreted as “housing starts.”

Chapter 14

Health Profession Shortage Areas (HPSA), 2007

Variable Name	Description
P_HPSA_Cty07	Whole county designated as a Single County Primary Care HPSA, 6/21/07
P_HPSA_Geo07	At least one area within the county designated as a Geographic Area Primary Care HPSA, 6/21/07
P_HPSA_Pop07	At least one population within the county designated as a Population Group Primary Care HPSA, 6/21/07
P_HPSA_Oth07	At least one facility/program within the county designated as an other Primary Care HPSA, 6/27/07
M_HPSA_Cty07	Whole county designated as a Single County Mental Health Care HPSA, 6/21/07
M_HPSA_Geo07	At least one area within the county designated as a Geographic Area Mental Health Care HPSA, 6/21/07
M_HPSA_Pop07	At least one population within the county designated as a Population Group Mental Health Care HPSA, 6/21/07
M_HPSA_Oth07	At least one facility/program within the county designated as an other Mental Health Care HPSA, 6/21/07
D_HPSA_Cty07	Whole county designated as a Single County Dental Care HPSA, 6/21/07
D_HPSA_Geo07	At least one area within the county designated as a Geographic Area Dental Care HPSA, 6/21/07
D_HPSA_Pop07	At least one population within the county designated as a Population Group Dental Care HPSA, 6/21/07
D_HPSA_Oth07	At least one facility/program within the county designated as an other Dental Care HPSA, 6/21/07

Source

U.S. Department of Health and Human Services. Health Resources and Services Administration Geospatial Data Warehouse. Health Profession Shortage Area Report - Primary Care. June 21, 2007.

U.S. Department of Health and Human Services. Health Resources and Services Administration Geospatial Data Warehouse. Health Profession Shortage Area Report - Mental Health Care. June 21, 2007.

Computations

The variables were computed from the HPSA database which was supplied as three separate data files, one for each HPSA discipline: primary care, dental care, and mental health care. The files contain one record for each HPSA in each county, except for Geographic Service Area HPSAs and Population Group HPSAs which can have multiple records for a county. The variables only cover HPSAs with a status of “designated.” HPSAs with other statuses were skipped when the variables were computed.

Missing Values

There are no missing values for these variables.

Terms and Definitions

Health Professional Shortage Areas (HPSA) - A geographic area, a population group, or a public or nonprofit facility that has a shortage of primary medical care, dental care, or mental health care providers. More than 34 federal programs depend on the HPSA shortage designation to determine eligibility or as a funding preference. Statute requires that HPSAs be reviewed annually. This is implemented by requiring updates of HPSAs more than three years old. For example, those HPSAs designated or last updated in 2001 were scheduled for review in 2005. Update requests are sent to State Primary Care Offices, Governors’ Offices and other organizations in the State. Those HPSAs for which no data is received are proposed for withdrawal.

HPSAs are classified according to three discipline classes—primary care, mental health care, and dental care— and 12 types:

- Single County - whole county designated as HPSA
- Geographic Service Area - portions of a county or portions of multiple counties designated as a HPSA
- Population Group - a population group within an area that is designated as a HPSA
- State Mental Hospital - state run mental health inpatient facilities
- Correctional Facility - federal and state prisons and youth detention facilities
- Comprehensive Health Centers - entities receiving Section 330 funds to operate comprehensive health centers
- FQHC Look-a-Like - Federally Qualified Health Centers certified as meeting 330 requirements but not receiving grant funds

- Rural Health Clinic - certified as a Rural Health Clinic by the Centers for Medicare and Medicaid Services
- American Indian - tribal health and urban Indian programs serving federally recognized tribes
- Alaskan Native - sites run by and/or serving the Alaskan Native populations
- Indian Health Service - IHS sites serving federally recognized tribes
- Other Facility - public or private non-profit medical facilities demonstrated to serve a designated area or population group

Each HPSA is assigned one of six statuses in the HPSA database, which is updated weekly:

- Unknown
- Designated - new or continued designation
- Rejected - review of application shows it does not meet the criteria for designation
- Proposed Withdrawal - proposed withdrawal based on review of application
- No New Data - proposed withdrawal due to lack of new data being submitted as part of annual review
- Withdrawn - HPSA withdrawn at time of Federal Register Notice (FRN) publication. No New Data and Proposed Withdrawals convert to Withdrawn when the next FRN is published. Also a HPSA that has been replaced by a new one, such as a population group HPSA replacing a geographic one.

Chapter 15

Medicare Enrollment, 2003

Variable Name	Description
Mcare_Agd03	Aged Medicare Part A and/or Part B enrollees, 7/1/03
McareA_Agd03	Aged Medicare Part A enrollees, 7/1/03
McareB_Agd03	Aged Medicare Part B enrollees, 7/1/03
Mcare_Dsb03	Disabled Medicare Part A and/or Part B enrollees, 7/1/03
McareA_Dsb03	Disabled Medicare Part A enrollees, 7/1/03
McareB_Dsb03	Disabled Medicare Part B enrollees, July 1, 2003
Mcare03	Total aged and disabled Medicare Part A and/or Part B enrollees, 7/1/03
McareA03	Total aged and disabled Medicare Part A enrollees, 7/1/03
McareB03	Total aged and disabled Medicare Part B enrollees, 7/1/03

Source

U.S. Department of Health and Human Services. Centers for Medicare and Medicaid Services. Medicare Aged and Disabled by State and County as of July 1, 2003 (County03.TXT). No date given. Accessed June 20, 2007.
<http://www.cms.hhs.gov/MedicareEnrpts/Downloads/County03.zip>.

U.S. Department of Health and Human Services. Centers for Medicare and Medicaid Services. County to CBSA Crosswalk File NPRM2008_xwalk_file.xls. No date given. Accessed June 20, 2007.
http://www.cms.hhs.gov/AcuteInpatientPPS/downloads/NPRM2008_xwalk.zip.

Missing Values

1. Mcare03, McareA03, and McareB03 are coded missing for Adams, Boulder, Broomfield, Jefferson, and Weld Counties, Colorado and 17 Alaskan counties not covered by the data source. The five Colorado counties were coded missing because the original Medicare data did not have a separate record for Broomfield County which was created in 2001 from parts of Adams, Boulder, Jefferson, and Weld Counties.

2. Counties coded missing for Mcare03, McareA03, and McareB03 are also coded missing for Mcare_Agd03 to McareB_Dsb03. The latter six variables are also coded missing for 26 additional counties whose overall Medicare enrollment (Mcare03, McareA03, and McareB03) was not broken down by aged (Mcare_Agd03, McareA_Agd03, and McareB_Agd03) or disabled enrollees (Mcare_Dsb03, McareA_Dsb03, and McareB_Dsb03) in the data source.

Computations

1. County03.TXT, the main data source, does not include state and county FIPS codes which were needed to join the Medicare data with the other contextual variables. The FIPS codes were obtained from the crosswalk file NPRM2008_xwalk_file.xls by match-merging County03.TXT and NPRM2008_xwalk_file.xls on the state and county names included in both files.
2. County03.TXT has records for four defunct counties and county equivalents: Washabaugh County, South Dakota and the independent cities of Clifton Forge, South Boston, and Nansemond, Virginia. Their data were combined with the data of the counties of which they are now a part: Washabaugh County with Jackson County, South Dakota; Clifton Forge city with Alleghany County, Virginia; South Boston city with Halifax County, Virginia; and Nansemond city with the independent city of Suffolk, Virginia.
3. For Los Angeles County, California, the last digit of McareA_Dsb03 and the last digit of McareB_Dsb03 are missing in the data source. These truncated values were recoded by multiplying by ten and then adding five. Thus, McareA_Dsb03 was changed from 11,807 to 118,075 and McareB_Dsb03 from 10,763 to 107,635.

Terms and Definitions

Medicare - A health insurance program for 1) people aged 65 or older, 2) people under age 65 with certain disabilities, and 3) people of all ages with permanent kidney failure requiring dialysis or a kidney transplant.

Medicare Part A - Hospital Insurance that helps cover inpatient care in hospitals, including critical access hospitals, and skilled nursing facilities (not custodial or long-term care). It also helps cover hospice care and some home health care.

Medicare Part B - Supplementary medical Insurance that helps cover doctors' services and outpatient care. It also covers some other medical services that Part A doesn't cover, such as some home health care and some services of physical and occupational therapists.

~~~~~

The legally defined first-order subdivisions of Alaska are called boroughs. The portion of Alaska that is not within organized boroughs is covered by a single "unorganized borough," a legal entity administered by the State government. Because the unorganized borough is too large geographically to provide a suitable basis for data analysis, the State of Alaska and the Bureau of the Census have divided it into "census areas" for statistical purposes. The census areas are identified in the list by "(CA)" following the name. Data systems that use the unorganized borough may code it as 999. Changes since FIPS PUB 6-3: Aleutian Islands (CA) (010) was replaced by Aleutians East (1978 October 23) and Aleutians West (CA) (1990 January 1); Kobuk (CA) (140) was replaced by Northwest Arctic (1986 June 2); Lake and Peninsula was established from part of Dillingham (CA) (1989 April 24). (The relationships are approximate.)

DISTRICT OF COLUMBIA (DC) (11)

CODE	NAME
----	----
001	District of Columbia

~~~~~  
Name was reported incorrectly as "Washington" in FIPS PUB 6-3.  
The District has no first-order subdivisions, and therefore  
"District of Columbia" also serves as the county-equivalent entity.

~~~~~

The codes for Charles City and Charlotte Counties, reported respectively as 037 and 039 in FIPS PUB 6-3, have been corrected. The Bureau of Economic Analysis, U.S. Department of Commerce has defined codes in the 900 series to represent county/independent city combinations in Virginia.
